James D. Cox, Thomas Lee Hazen : Corporations (Introduction to Law Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Corporations (Introduction to Law Series):

0 of 34 people found the following review helpful. Great purchase experience - no problems! By Mark Boileau The text was as described with no issues. The delivery was prompt and handled in a professional manner. I recommend this seller.

In bCorporations, Introduction to Law Series, Second Edition/b, students benefit from the same expertise trusted by attorneys practicing corporate law. As the names behind one of the foremost corporate law references, these authors

bring unmatched insight and authority to the introductory text. Their analysis of major cases sets the standard for the field. Their scholarship clarified the larger economic and policy issues underlying corporate law. At the same time, their clear, succinct, explanations make this text readily accessible to beginning law students with no business or economic background. Written by two of the field's leading authorities, this definitive text offers:

- a superb introduction to corporate law providing authoritative coverage of the standard course topics, terminology, and cases - along with insightful discussions of related economic, theoretical, and policy issues where appropriate
- an accessible presentation by noted scholars combining the expertise and case analyses of two leading authorities in an introductory text requiring no business or economics background

The 2003 edition has been thoroughly updated to include:

- new and updated coverage throughout, with recent cases
- new discussions of unincorporated forms of business, insightful explanations of such news-making issues as corporate governance and director liabilities, and coverage of LLCs and LLPs
