But I can't, since I am fulltime teaching math and already got my PhD. So I decided to study by myself. I found this book from the book list for law students at UCLA School of Law. I like this book very much. This book is about criminal law and its processes as the title indicated and more importantly, it has many cases and materials. Thus, this book has the fundamental legal knowledge. I heard some student said that studying law is boring. But I feel this book is not boring at all, it is fascinating. It not only has the knowledge law

students need to learn but also has interesting lead to guide students to learn. This book has ten chapters. Chapter 1 is Institutions and Processes. Chapter 2 is The Justification and Punishment. Chapter 3 is Defining Criminal Conduct The Elements of Just Punishment. Chapter 4 is Rape. Chapter 5 is Homicide. Chapter 6 is The Significance of Resulting Harm. Chapter 7 is Group Criminality. Chapter 8 is Exculpation. Chapter 9 is Theft Offenses. Chapter 10 is Discretion. 0 of 0 people found the following review helpful. Kind of limited were my thoughts By Reinvented This edition is one of my least favorites because it just didn't cover enough subject areas. It could have been a few hundred pages longer to include other crimes instead of shorter and limited to only a few crimes and cases. 0 of 0 people found the following review helpful.
