You cannot do well on a law school exam or bar exam relying solely upon BarCharts. That is not their purpose. What BarCharts ARE: a condensed overview of the black letter law. Use them as a quick reference to understand the material during the semester. Use them as a REVIEW of the material you (should) have already studied for the exam. In law school, BarCharts were the last thing I skimmed over before taking an exam. It's a good refresher. Same with the bar exam. I skimmed over my BarCharts both nights before the exam. 2 of 2 people found the following review helpful. Bar Chart's - Criminal Law By Robert G. Deardorff EXCELLENT! Criminal Law by Bar Charts is written in concise form to give me the information I need in seconds. Particularly, first-year students, by following the outline the process of writing a memorandum, briefing a

case, and/or setting up smartly written letter to an attorney if you are a paralegal and/or attorney want to convey the opinion. You will find that Actus Reus and Mens Rea are nicely broken down in a manner where I could use it quickly. The greater the planning, the better a written brief, memorandum and/or letter give you a wonderful boost. Then combine the aforementioned with Voluntary Act, Specific Intent, General Intent and/or Strict Liability and I am able to put together again a smartly written paper that has gotten me A's.
