I've used others like this (civ pro, evidence, and contracts) and found them mostly helpful. This was basically a recording of the rules being read aloud. Very few insights were available.0 of 6 people found the following review helpful. Empty case receivedBy Mama LamI opened up my sealed case and it was empty. Buy this CD from your law school or buy the download version because otherwise you could be stuck with \$35 Crunchtime case.2 of 2 people found the following review helpful. Accessible formatBy LauraThe mp3 format is very convenient for self-study while working out, walking, commuting, etc. Lightweight and good to give the eyes a break from reading. The previous 1-star rating was a reflection on one customer's seller experience, not on the quality of the

product. Emanuel is a solid publisher that has helped me out a lot in several subjects.
