**Russell G. Smith, Peter Grabosky, Gregor Urbas : Cyber Criminals on Trial** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cyber Criminals on Trial:

This book comprises an international study of the manner in which cyber criminals are currently handled by the judicial system. As computer-related crime becomes more important globally, both scholarly and journalistic accounts tend to focus on the ways in which the crime has been committed and how it could have been prevented. Very little has been written about the capture, possible extradition, prosecution, sentencing and incarceration of the cyber

criminal--until now.

of the hardback: '... definitely a reference book giving us a thorough analysis of cyber crime. I am convinced that every prosecutor should read it, whether he or she is directly concerned by the issue or not, since even in cases where cyber crime is not directly involved, some techniques related to it may have been used or may have triggered off the commission of other offences. International Association of Prosecutors

About the Author Russell G. Smith, BA (hons), LLM, DipCrim (Melb.), PhD (London), Solicitor of the Supreme Court of England and Wales, Barrister and Solicitor of the Supreme Court of Victoria and the Federal Courts of Australia, is Deputy Director of Research at the Australian Institute of Criminology.
