Yee Fen Lim : Cyberspace Law: Materials and Commentary before purchasing it in order to gage whether or not it would be worth my time, and all praised Cyberspace Law: Materials and Commentary:

Cyberspace Law: Commentaries and Materials provides a detailed study of internet law with an Australian perspective.

`Well suited to undergraduate student discussion ... also food for thought provided for the serious academic ... One of the major strengths of this volume is the cases and materials that are used; it reads as a veritable who's who on the

world stage of cyberlaw ... well researched ... wellpresented ... well written.'International Journal of Law Information and TechnologyAbout the AuthorYee Fen Lim is at Macquarie University.
