Alexander W Russell, Ernest C Hope : Davenport's Texas Wills And Estate Planning Legal Forms before purchasing it in order to gage whether or not it would be worth my time, and all praised Davenport's Texas Wills And Estate Planning Legal Forms:

It made doing a Will and other legal documents easy By Tom Johnson This book really does cover and have the 10+ ready-to-use legal forms of all the types listed, with very helpful filled-in copies of all the forms to show how to use them. I used the Will and the Self-Proving Affidavit already, and plan on using a few other forms which the wife wants done. I had no problem downloading the forms free over the internet using the internet links in the book, but you have to click the right spot, and maybe they should do a new website. This book is very easy to read and doesn't cover unusual situations, but that is fine with me and I like how I can read the book and do the forms easily in just a couple hours. 1 of 1 people found the following review helpful. Online sample wills did not work By Skip Decent book

and explained clearly. The problem was with the online copies of sample wills. They either didn't work or they required you to install a 3rd party app to be able to read it. So, I had to manually transcribe the printed material.

This book written by attorneys and published by Davenport Press reviews Texas law and provides ready to use Wills and Estate Planning legal forms for Texas. Estate Planning concerns how to arrange things for and control upon illness or death one's property and money, children and dependants, health care, and more. The 9 ready to use Texas forms in this book (which also can be downloaded free) are: 1) Last Will And Testament (lets one give instructions to on death gift property, choose guardians for children and their property, say if less burdensome legal options can be used, pick an executor to handle affairs, and control other matters), 2) Last Will And Testament (No Guardians) (this form is like the standard Will but has no Guardians paragraph since it is meant for people without minor children and also not giving property to any minors), 3) Self-Proving Affidavit (this standard form is often signed with a Will to avoid work of later after death showing a Will was signed correctly (by later finding witnesses to the Will signing or someone familiar with everyones signatures and having them appear in court)), 4) Medical Power Of Attorney (lets health care instructions be given and person be named to control health care in case one cannot later control own health care), 5) Directive To Physicians And Family Or Surrogates (also called a Living Will this form lets one say how health care should stop if clearly in terminal condition near death); 6) Do-Not-Resuscitate (this form can be requested from a doctor when in poor health to show paramedics and others to not try restarting the heart, breathing, or other major actions), 7) Statutory Durable Power of Attorney (lets power over ones money, property, and more be shared with a very trusted person often done so they can help do or manage things), 8) Authorization Agreement For Nonparent Relative (lets broad power over a child including health care and education be shared with childs grandparent, aunt or uncle, or adult brother or sister which is often done if parents will be away from a child (another form can give a non-relative or a school power over only medical treatment), and 9) Appointment Of Agent To Control Disposition Of Remains (lets person give instructions and pick person to control bodily remains including related matters of funeral, cremation, and burial rather than have closest family member control this).
