before purchasing it in order to gauge whether or not it would be worth my time, and all praised *Developing a Patent Strategy*, 2015 Edition: Leading Lawyers on Drafting Effective Patents, Seeking Global Protection, and Navigating the America Invents Act (Inside the Minds):

*Developing a Patent Strategy* provides an authoritative, insider's perspective on key tips for drafting and filing science and technology patents in light of new USPTO proceedings. Featuring experienced partners from law firms across the nation, these experts assist startups and established companies in creating portfolios and overcoming challenges in changing patent eligibility limitations. These top lawyers offer specific advice on conducting due diligence, adjusting software patent strategies for increased success at the patent office, and helping smaller companies file applications globally. From analyzing prosecution trends in the USPTO to developing cost-effective strategies that focus on client business goals, these experts stress the importance of reassessing current and upcoming patents in a post-Alice world and discuss best practices for investing in a well-drafted filing. The different niches represented and the breadth of perspectives presented enable readers to get inside some of the great legal minds of today, as these experienced lawyers offer up their thoughts on the keys to success within this dynamic field. *Inside the Minds* provides readers with proven business and legal intelligence from leading C-Level executives and lawyers. Each chapter offers thought leadership and expert analysis on an industry, profession, or topic, providing a future-oriented perspective and proven strategies for success. Each author has been selected based on their experience and C-Level standing within the business and legal communities. Chapters Include: 1. Thomas E.
