Sacha Prechal : Directives in EC Law (Oxford European Community Law Library) before purchasing it in order to gage whether or not it would be worth my time, and all praised Directives in EC Law (Oxford European Community Law Library):

This fully revised and updated new edition offers a detailed exposition of EC Directives, individual rights, and the protection of those rights in national courts. Throughout the text, the author's empirical argument is enriched by

discussion of doctrine and theory. In an updated conclusion, the prospects of Directives in the future and in the light of the nascent European Constitution are discussed. The result is an extensive and in-depth analysis of Directives, the case-law of the ECJ, and legal writing on the topic, which also engages with the more practical issues of implementation and enforcement in the courts.

...Prechal has produced a second edition of *Directives in EC Law* that has many scholarly strengths and very much to offer the reader who delves into its pages. Michael Dougan, *Public Law* ...an encyclopaedia of information and analysis of the form and content of European directives and of their impact within national legal systems...Prechal's detailed study is an important contribution to the existing literature on the enforcement of Community law at national level. Aine Ryall, *Yearbook of European Law* From the Back Cover This book offers us the first detailed exposition in print on EC directives, individual rights, and the protection of those rights in national courts. The author investigates three central themes: the characteristics of EC directives; the role which national courts play in protecting the rights which individuals derive from these directives; and the 'devices' and means by which the courts may implement this protection. Focusing initially on clear examples in the Court's case law, the author moves on to analyze specific 'lines' within the case law itself. This practical approach enables the author to meticulously examine how these lines may complement and confront each other. About the Author Sacha Prechal is Professor of International and European Institutional Law, University of Utrecht Faculty of Law.
