R. Ray Brooks : Divorce and Conquer before purchasing it in order to gage whether or not it would be worth my time, and all praised Divorce and Conquer:

1 of 1 people found the following review helpful. FINALLY A BOOK ON DIVORCE YOU CAN UNDERSTAND!By DianeMarieHaving been both the participant in a divorce and a family law paralegal I highly recommend this book. As scary as legal matters are the most is not knowing what to expect from not only your attorney, but your soon to be former spouse. This book is factual, very easy to understand and filled with knowledge you need. Divorce is painful no matter what the circumstances but when you are prepared it is a lot easier. Before you

see an attorney you owe it to yourself to read this book. I highly recommend this book to anyone who needs guidance through the twisting turning journey of divorce. 2 of 2 people found the following review helpful. **Divorce and Conquer** By KC In his preface, Mr. Brooks stated that he wanted to write this book as if we were sitting at a table across from each other and having a conversation about the divorce process. He certainly accomplished that and more. The book is well written in plain and simple terms, easy to understand regardless of one's personal experience with divorce. I highly recommend "Divorce and Conquer" to anyone who finds themselves in this quandary. 2 of 2 people found the following review helpful. **Simple, Concise Incredibly Informative** By Diane Henry Thank you, Mr. Brooks. The emotion filled crisis of divorce, the legal system, lawyer double talk, and constant delays are discussed chronologically and in an understandable manner. This book is not only a money saver but also a mentor helping you every step of the way. His style is remarkably easy to understand without repetition or condescension. Three words sum it up....**BUY THE BOOK.**

This is it. The first in the three part **Conquering Divorce** series. A chapter each on finding the right lawyer for you, what to expect in the interview process and what you should look for in the lawyer's contract will save you time, stress and thousands of dollars in legal fees. You get the answers to the most frequently asked questions about the court process, all of the delays, and what you should expect (and not expect) from your lawyer and the judge. There is straight talk about the basics like custody actions, mediation, trials, support, starting to date, and even how to act when you see your estranged spouse or their lawyer out in public. The information within will ease your anxiety, insecurity and frustration during a crucial and scary time. Read it cover to cover.
