Really great and useful bookBy MicheleLKI love the "For Dummies" series of books, so when I realized I was going to be getting a divorce, of course they were the first company I looked for. They did not disappoint.This book is full of great information that deals with the realism of getting divorced; the costs, both emotional and financially, and has a goal of getting you to a divorce that is least draining to all. It has a ton of resources for mediation, lawyers, and tries really hard to have you and your soon to be ex work things out as much on your own as possible before going to lawyers to reduce costs overall.I recommend this book to anyone considering going through a divorce.5 of 5 people found the following review helpful.
