**Lowell K. Halverson, John W. Kydd : Divorce in Washington a Humane Approach** before purchasing it in order to gage whether or not it would be worth my time, and all praised Divorce in Washington a Humane Approach:

2 of 4 people found the following review helpful. Halverson was NOT THE ONLY AUTHOR!By A CustomerNot sure where the other reviewer was coming from, but it sure sounds like he had a personal axe to grind of some sort. All I can say is that this book led me to hire John Kydd to represent me in my divorce proceedings and I'm not sorry I did. There were \*two authors\* to this book, and to give it one star because one of the authors later got into legal trouble himself seems unfair. The book \*is\* a useful reference tool if you want to divorce but don't want to do so bitterly and to the last dollar and/or drop of blood. Don't throw out the baby with the bathwater. Attorney Kydd was not disbarred, and he seems squeaky clean ethically, and frankly, he's a nice man and a good attorney. Give the book a chance.3 of 7 people found the following review helpful. Author is a Disbarred LawyerBy Michael ScharaMy advice is SAVE your money. This book at best is the type of advice one would receive at a family picnic. The buying public needs to know that one of the writers/authors of this books is a disbarred Washington State attorney his name Lowell K. Halverson. Mr. Halverson was recently disbarred by the WSBA for having sex with clients he met through his law practice as a divorce lawyer. Lowell Halverson has not only been disbarred but also settled a law suit out of court with one of his client and her husband regarding his deviant sexual activity. Lowell Halverson has admitted to having multiple sexual encounters with clients. When it comes to purchasing this book save your money, you would recieve better advice from a close friend. When it comes to legal problems including divorce, always hire an advocate that has a respectable, descent reputation, unlike Lowell K. Halverson of Mercer Island, Washington. This books is a sham at best and doesn't deserve neither your time or money. My review doesn't warranty even 1-Star.1 of 2 people found the following review

helpful. A definite readBy Guy Who Went Through ItRemembering that a book's worth is about its contents, this is the most helpful thing I ever picked up for my divorce. The emphasis Halverson and Kydd make is in the word "humane," where my wife and I were definitely going the other way. This helped us bring it back to focus and get the job done without all the sparring lawyers. It's a reminder, in a step-by-step format with lots of useful discussion, that really the two of us were in charge, not them. Definitely pick up the book if you can still find it!

Like new. Very good condition.
