Eases the anxiety when starting a divorceBy D BDivorce Mediation in Oregon was recommended to me by a friend when I

was looking into the divorce process. I was extremely nervous and didn't know where to start. After reading the book, I had a better understanding of the divorce process, answers to many of my questions, and was able to prepare a shorter, more specific to my situation, list of questions to ask to potential professionals in the divorce field. It didn't make me a divorce expert, but it pointed me in the right direction for my divorce. 0 of 0 people found the following review helpful. **A Must Read Before You Get Divorced!** By Rene Nelson This book is amazing. A friend of mine gave it to me to read so I could advise my clients when they have questions about getting a divorce. Julie did a great job explaining complex information like separating assets and real estate. I really appreciated the sections where it explained in detail how to take care of the children in the process and make it manageable for them in this difficult time. This is a great read!
