have advocated reading this book to any man stupid enough to consider marriage (or worse: re-marriage) to see what they are setting themselves up for in our current twisted Family Court system. This exposes the sick, depraved, and totally acceptable tactics used during a divorce by predatory women and their attorneys. The fact that it enriches a scum attorney and publisher in doing so I feel is a small price for the greater good (I gave my copy away for the cause).0 of 1 people found the following review helpful. It Can Happen To YOU!By NICOLALadies, A few little marriage troubles? Well, buy this book the day he brings you flowers home unexpectedly, compliments your outfit quite out of the blue or any other time when he is suddenly extra polite. The longer you have been married, the more you need to study this like your livelihood depends on it....because, IT DOES! Best of luck and stay 3 steps ahead.0 of 1 people found the following review helpful. If You're in a Divorce - Get This BookBy Lee CollinsThis book is designed to instruct women on how to screw over their husbands when they are in a divorce. But if men read it, they will know exactly what to expect from that sneaky little bitch they married. It saved me thousands of dollars and helped me predict many things my wife tried to do ahead of time and I was able to head her off at the pass on most it.
