**Judith Briles, Edwin C. Schilling III, Carol Ann Wilson : Dollars Sense of Divorce** before purchasing it in order to gage whether or not it would be worth my time, and all praised Dollars Sense of Divorce:

1 of 1 people found the following review helpful. Dollars Sense Of Divorce Is InvaluableBy The WorkwomanI first read Judith Briles' Dollars Sense of Divorce in the late 1980s. Although not involved in a divorce myself, her down-to-earth descriptions of the human foibles and scenarios that play out in a divorce rang true. I found her funny, kind, and smart. The second section of the book provides financial advice to women on their own after the divorce. This was VERY helpful to me. Thanks to Judith, I began to buy a few small stocks, save money, invest, and generally prosper. As a former poet/writer/beatnik, the world of money management was not one I came to easily. I bought the book for a friend. In fact, I bought both editions for her--the original one, which I knew; and the update, so the legal information would be current. She also reports reading BOTH books avidly and finding them VERY helpful.0 of 0 people found the following review helpful. Gift for Friend Going Thru a DivorceBy CustomerI purchased this book for a friend that

was going through a divorce. She said it did give her information that she wouldn't have thought of. I gave it 5 stars as it came on time friend appreciated it.0 of 0 people found the following review helpful. Three StarsBy Marianne M.Many thanks.

Don't let your divorce destroy you. From financial pitfalls to emotional bombshells, from inside tips to pointers on dealing with the legal system, this book is the ultimate guide to what happens in a divorce and how to navigate the system successfully. You'll learn how to:Negotiate the best financial package for youCreate an advisory team that worksImplement proven strategies at every stage of divorce: before, during, and afterDetermine what's important-and what's not There are volumes of books on divorce. The Dollars and Sense of Divorce is unusual in that it is written for both men and women-and it looks at divorce before, during and after. Post divorce, you'll save thousands of dollars from the savvy and sage advice you'll find here" "This book should be the first book a person picks up when considering divorce or separation, as it could save readers some hard-learned lessons down the rocky road ahead. Readers will find it well written and easy to read, with its list of 13 do's and don'ts serving as handy checklists Financial topics covering alimony payout options, health insurance coverage and pension distribution are clearly illustrated through the use of simple examples. While a lot of books on divorce are geared toward women, this book maintains a neutral perspective, and presents advice that would be beneficial to either gender" --Midwest Booklist
