I have dealt with her on a professional level and was extremely disappointed at what a crook she was. She accepted my hard earned money but didnt lift a finger to do any work on my case and didnt even make herself available for phone conversations to discuss

my case. I am a private business owner so I know for a fact that customer service is one of the most important aspects to being successful and this woman doesn't care AT ALL about her clients so please don't support this woman by buying her book. She steals people's money. 1 of 1 people found the following review helpful. **YOU MUST HAVE THIS ON YOUR KITCHEN TABLE** By Book club reader You must have this book on your kitchen table! Just reading some of the passages aloud scared my family, for example, you can lose your driver's license for 12 months simply by refusing to give a sample to the police...who can stop you for any minor traffic violation. Wish this book was available for every state, since the laws are so vastly different. Well done Arizona for leading the way!
