**Ralph M. Gerstein, Lois A. Gerstein : Education Law, Second Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Education Law, Second Edition:

The legal relationship between student and school is a fragile one. Almost every area of law affects education institutions in some manner. The rights of students, parents, and school employees are governed by constitutional provisions and by federal, state and local statutes. Contract law, tort law, constitutional law, civil rights law, sports law and disability combine to form the basis of education law. Education Law, Second Edition is your essential guide to creating standards for your school district and enforcing your legal rights in the classroom. You will be guided through the rights of teachers and other school employees, parents, and students through case studies of previous legal actions. The authors, Lois and Ralph Gerstein, analyze these legal issues from the points of view of students, parents, and

school personnel, providing a well-rounded explanation of how local, state, and federal laws are interpreted in numerous and diverse education-related cases.

From the Author  
In writing this book, we have attempted to analyze legal issues from the points of view of both the students and the school administrators. A person who understands the legal issues can negotiate from strength and will be in a good position to litigate if negotiations fail. As much as a third of the lawsuits described in this book could have been avoided if the parties recognized the legal issues before the problem became unmanageable.  
About the Author  
Ralph Gerstein, J.D. is an attorney admitted to practice in New York and New Jersey. Mr. Gerstein holds a bachelor's degree from New York University and a law degree from Brooklyn Law School. Lois Gerstein, M.S.W. holds a bachelor's degree from Queens College and a master's degree in social work from New York University. In recent years, she has been a paralegal, practicing in the areas of education, health and government regulation.
