*Elder Law Trusts and Estates* is an authoritative, insider's perspective on best practices for working with clients and their families during the estate planning process. Featuring partners and chairs from law firms around the nation, these experts guide the reader step by step through the estate planning process when working with elderly clients and offer advice on overcoming common challenges in asset protection by ensuring appropriate documentation, managing timing, and avoiding tax problems. These top lawyers discuss the importance of understanding the client's goals by obtaining key information, developing a good attorney-client relationship, and managing interactions with family members who may be involved in the estate planning process. Additionally, these leaders outline important jurisdictional considerations and offer their thoughts on recent regulatory developments and trends that will have an impact on estate planning. The different niches represented and the breadth of perspectives presented enable readers to get inside some of the great legal minds of today, as these experienced lawyers offer up their thoughts around the keys to navigating an ever-evolving area of law. *Inside the Minds* provides readers with proven business intelligence from C-Level executives (Chairman, CEO, CFO, CMO, Partner) from the world's most respected companies nationwide, rather than third-party accounts from unknown authors and analysts.
