Cesar Guerra : Elian: Shame or Sham? before purchasing it in order to gage whether or not it would be worth my time, and all praised Elian: Shame or Sham?:

0 of 0 people found the following review helpful. Five StarsBy watch enthusiastLOVE IT, MY BROTHER WROTE THE BOOK0 of 0 people found the following review helpful. Yet Another Home Run!By P. AndrewIf you haven't read his first book, Hi-jacked to Havana! Get it and treat yourself! This book is also another thought provoking and engaging masterpiece. The author raises questions that I would never have imagined. This book goes to show that you must look beyond the headlines and what people simply say by asking questions for yourself. While he asks the

questions for you he does not answer them. Instead you are left to come up with your own answers or to seek them out yourself. Truly a terrific book that encompasses the law, family values and cultural differences. Two more emphatic thumbs up! 0 of 0 people found the following review helpful. Just the facts! By T. Guerra This is a must read !!! If you thought you had all the facts, think again. This book goes deeper than the Miami Herald, The Sun-Sentinel, and El Nuevo Herald!!! Check it out and then think twice about voiting another Clinton into office.

The dramatic and relatively short stay of Elian Gonzalez in the United States caught the attention of the entire nation. What started out as an incredible rescue from the Gulfstream turned into an international child custody case with profound results! Other than considering it a contemporary divine miracle as categorized by the news media, the survival of Elian itself does raise some doubts, as do some of the subsequent events that followed. The author's narrative of the actions and decisions taken by Attorney General Reno and the Clinton Administration, unfold an unspoken scenario. Throughout the pages of this book are found many thought provoking questions the reader must answer. Did the Department of Justice conduct this affair in it entirety under the rule of law? Did the Gonzalez family in Miami break the law when they ignored the INS order to return the child to them? Could this be a sham cunningly perpetrated by Fidel Castro? Could the outcome of the 2000 Presidential election have been one of the consequences of the way the Elian case was handled? Read this book and reach your own conclusions.

About the Author Cesar Guerra came to the United States in June of 1962 during the early mass Cuban political exodus. He and his American-born wife have three children and have lived in South Florida since 1970. Now retired, he dedicates his free time to writing. His novel Hijacked to Havana was published in 2001.
