**From American Bar Association : Emerging Companies Guide: A Resource for Professionals and Entrepreneurs** before purchasing it in order to gage whether or not it would be worth my time, and all praised Emerging Companies Guide: A Resource for Professionals and Entrepreneurs:

5 of 5 people found the following review helpful. Great for LawyersBy ChrisCThe previous reviewer commented that this book would be a "waste of time" for a person with an MBA and professional experience. I just graduated from law

school (and I do not have an MBA) nor have I ever started my own company. As this book is published by the American Bar Association, it is targeted towards lawyers. I find this book incredibly useful. The book is very broad in scope. I expect to be able to refer to it when I think I might be missing a consideration or an issue. Obviously, this book is best used in conjunction with other resources, and with other professionals (an accountant, for example). Lawyers are used to "issue-spotting" and then doing the legwork to gather more information. This book is an "issue-spotter" book, which is probably what the previous reviewer was getting at. It isn't going to teach you everything you'll ever need to know. Business doesn't work that way. But it is going to make sure you aren't missing anything crucial.

A comprehensive, handy resource of key legal and business aspects of forming, organizing, operating and developing emerging/growth-oriented businesses.
