rental and a cheap one at that so going to tough it out. 0 of 0 people found the following review helpful. Good idea but needs a website with current links By Deb Environmental laws, regulations and compliance are all parts of an ever-changing field. The "web-enhanced" of this text means that are links included in the text to be sure that the reader can go to the latest information. Unfortunately many are broken, including the one to get updated information from the author. I very much like the idea but in order for it to be valid and reliable the reader must know that they are getting good value for their money. The volume is quite slim and depends on the information to be gained from the links. I'll try to see what I can do to contact the author through the publisher to discover how this can be improved.
