Ronald G. Burns, Michael J. Lynch : Environmental Crime: A Sourcebook before purchasing it in order to gage whether or not it would be worth my time, and all praised Environmental Crime: A Sourcebook:

1 of 2 people found the following review helpful. Great For Budding ResearchersBy Dexter E. FraserThe text is a huge step toward increasing research on environmental crimes. It provides resources for the acute researcher.

Environmental Crime: A Sourcebook provides ideas, tools, and data to investigate environmental offenses. Burns and Lynch urge readers to recognize the availability of a wide array of data regarding environmental offenses and provide bibliographic tools to locate this data. They also provide data sets and examples of data available from the Environmental Protection Agency (EPA) and state agencies charged with enforcing environmental laws. Specific sections describe EPA resources, accessing and downloading EPA and other environmental law compliance and violation data, methods of compiling EPA data, actual environmental crime data sets, and research that can be performed using these data. Written in a non-technical manner, the book is designed to provide readers from all backgrounds with an understanding of environmental crime and the avenues by which it can be recognized and researched.

About the Author Ronald G. Burns is an Assistant Professor of Criminal Justice at Texas Christian University. He recently co-edited *Policing and Violence*, and has published manuscripts on policing, media construction of crime, and white collar crime. His most recent work assesses law enforcement responses to internet fraud. Michael J. Lynch is an Associate Professor and Director of the Ph.D. Program in the Criminology Department at the University of South Florida. His research interests include corporate crime, environmental justice, racial bias in the criminal justice system, and radical criminology.
