Richard Revesz : Environmental Law and Policy (University Casebook Series), 2nd Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Environmental Law and Policy (University Casebook Series), 2nd Edition:

0 of 0 people found the following review helpful. Great book! Only I wish there weren't so many ...By MuktaGreat book! Only I wish there weren't so many stickers on the jacket.

This casebook emphasizes environmental policy and the structure and details of the federal environmental statutes. It focuses students' attention on how tradeoffs between environmental goals and social goals are resolved in different and

difficult contexts. The book pays close attention to the political context in which regulation takes place, looking at the impact of our federal government, interest groups and the role of administrative agencies in the regulatory process. It focuses on current efforts to address climate change and regulate greenhouse gases through existing statutory frameworks.
