**Nicholas A. Robinson : Environmental Law Lexicon (Environmental Law Series)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Environmental Law Lexicon (Environmental Law Series):

"The Environmental Law Lexicon" will alert you to those expressions that have become terms of art, and enable you to deal with risk assessments; pre-manufacture notices for chemicals; remediation investigation and feasibility studies for hazardous waste sites; aquifer mappings; species habitat delineations; wetlands mitigation conditions; and a host of other measures required by federal and state laws and regulations. This book is updated as needed, generally once each year. Practice Area: Environmental Law

About the Author Nicholas A. Robinson is the Gilbert Sarah Kerlin Distinguished Professor in Environmental Law at the Pace University School of Law. Former Deputy Commission and General Counsel of New York's Department of

Environment Conservation, Prof. Robinson established Pace's nationally ranked environmental legal education programs and has practiced and taught environmental law for more than 35 years. He is a graduate of Brown University and of Columbia University Law School. He has served as General Counsel to the New York State Department of Environmental Conservation and was legal advisor to the World Conservation Congress in Switzerland from 1996-2004.
