Speedy delivery of a quality product.By T. BrittEven though the product was listed as 'used', it arrived via mail in near flawless condition. I was incredibly satisfied. This is the best product I have ever received when ordering a textbook. This is a complete detailed supplement to my Environmental Law textbook, including complete statutes for the Clean Air Act, the Clean Water Act, many new cases that were

added since the textbook was published, EPA regulations and guidance, RCRA, Superfund and much, much more. It was a great value for the money and I will definitely order more items from and this seller in the future.0 of 1 people found the following review helpful.
