Susan J. Westrick JD : Essentials of Nursing Law and Ethics 1st (first) edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Essentials of Nursing Law and Ethics 1st (first) edition:

0 of 0 people found the following review helpful. All about patients nothing about nursesBy Jaric FontaineThis book was written clearly and concisely. It's major flaw for me was that it wasn't really about Nursing law and ethics. Rather it was a book more about medical law and medical ethics. Very little had to do with the law and how it relates to nurses, rather it had to with the law and how it relates to patients. However, there are tons of books on this subject. I want a book dealing with nurses!0 of 0 people found the following review helpful. Required reading, class material for NSG 490By Steven DeanIt had alot of case scenarios. The law, ethics, and reasoning behind best practice was well explained. The book and the class were not well integrated. My thought is that it is not the fault of the publisher, but of the school of nursing. There was not a publisher-based learning module involved. You have to rely on a clear syllabus which is not always there.0 of 0 people found the following review helpful. Great bookBy gleasongirlI love each nursing book I buy. This is no exception.

Essentials of Nursing Law and Ethics is an authoritative resource designed to meet the needs of both nursing students and practicing nurses
