families and friends

By Joanne "Estate Downsizing" is an extremely helpful and practical book that would help both seniors and their families to downsize with less stress. This book helps you plan, gives you key issues to consider, and suggests way to deal with personal belongings and a move in a way that reduces the inherent stress and difficulty. It gives control back to the seniors or caregivers, by allowing for a more planned and thoughtful way to downsize. Also included are forms, questionnaire and checklists for seniors, families and caregivers that greatly help with the downsizing process. Given that this is often an extremely difficult and painful time of life, having a book to walk you through it and suggest practical ways to make it easier is a true blessing. Thank you.
