I have read it cover to cover and dogeared the pages, taken notes, written down questions to ask our attorney and more. I was in a fog about our wills and estate. This easy-to-read and down-to-earth book is a MUST for any couple looking to plan the same if either of them have been married before, regardless of their ages.1 of 1 people found the following review helpful. Terrific clear, simpleBy Katy ButlerTerrific clear, simple, well-grounded and helpful book, based on the premise of being fair to everyone (children from earlier marriages as well as new spouses) and expressing values and

family obligations in a viable estate plan. 4 of 4 people found the following review helpful. Needs same features as paper book! Beware! By Paul Here's an example of why ebooks get criticized: Unlike the paper book, this version contains helpful forms in the appendix that AREN'T available in a pdf format. This would be a simple fix, but apparently the editor/publisher wants you to buy both. Other ebooks I've bought have provided pdfs of forms at the end. C'mon, NOLO!
