Too much fluff and not enough concrete advice. Estate planning is far more complex than this book makes it seem (or, at least, good estate planning is).

"Estate Planning for Women Only" is written exclusively for women by an estate asset protection planning attorney,

Jeffrey M. Verdon. Estate planning for the woman is extremely important and often overlooked or ignored at their peril. "Estate Planning for Women Only" covers both the basics a woman must know in planning her estate, and more advanced aspects of wealth transfer, estate tax reduction and asset protection for those with larger estates and more complex issues. It is a fact that over 90% of women will at some point in their lives be solely responsible for their finances, making estate planning an essential topic for women. This booklet empowers women to become knowledgeable of the pertinent issues women should know about estate planning and how to prevent the pitfalls of a poorly planned estate.
