3 of 3 people found the following review helpful. A singularly useful tool By Midwest Book Review Written by attorney-at-law Daniel Sitarz, Estate Planning Simplified is a no-nonsense guide for lay readers to preparing a complete and comprehensive estate plan, with details of estate planning laws in all 50 states and Washington, D.C. Chapters address why an estate plan is necessary, how to select, prepare for and sign a will, preparing and changing a living trust, preparing a designation of primary physician, organ donation form, or quitclaim deed, and much more. The easy-to-follow language and fill-in-the-blank forms simplify the process as much as possible, and the accompanying CD with adobe acrobat reader allows the user to quickly print out any of the forms. A singularly useful tool whether one undertakes an estate plan alone or simply needs help getting the basic details prepared before talking to a lawyer who bills by the hour.

Easy to understand instructions and forms are presented for preparing a will, living will, living trust and many other forms.
