**Stewart Sterk, Melanie Leslie, Joel Dobris : Estates and Trusts, 4th (University Casebook Series)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Estates and Trusts, 4th (University Casebook Series):

2 of 2 people found the following review helpful. Great Trusts Estates CasebookBy Terence MoySurprisingly, I found this to be a great Trusts Estates casebook. It's well organized, and pretty easy to read. You don't get bogged down in esoteric theories and debates between commentators. Unlike most law school casebooks, this one isn't extremely dense and difficult decipher. Concepts are spelled out nicely and helpful examples are provided. Additionally, the casebook tends to compare and contrast the most popular approaches (across jurisdictions) to each issue. In fact, aside from the cases, the textbook reads like a legal supplement and makes this area of the law very approachable.0 of 0 people found the following review helpful. Good TE textbookBy TBinnBuy the Concepts Insights book by the same authors and

Trusts and Estates will be a breeze. As far as law textbooks go, this one is great. I appreciated all of the notes after each case which were actually very helpful. 0 of 0 people found the following review helpful. Four Stars By MBMAs advertised and swift delivery.

This casebook presents a functional approach to Trusts and Estates. In addition to a focus on recent cases, the book uses questions and problems to focus student attention on issues that face estate planners, litigators and policy makers. In each chapter, it integrates discussion of drafting and planning issues with its treatment of doctrine and policy.
