Aspatore Books Staff, [aspatore.com](http://aspatore.com) : Estates Trusts: Leading Lawyers on the Best Strategies for the Planning (Inside the Minds) before purchasing it in order to gage whether or not it would be worth my time, and all praised Estates Trusts: Leading Lawyers on the Best Strategies for the Planning (Inside the Minds):

Inside the Minds Estates Trusts is a guide for attorneys and their clients on the best methods for structuring tailored estate plans that will meet the individuals goals. The six seasoned attorneys in this book offer their insightful perspectives on everything from the first steps in identifying individual objectives to the ultimate administration of an estate plan, and all of the important dos and donts in between. Covering a wide array of topics ranging from living wills and powers of attorney to charitable trusts and business successions, the authors in this book discuss the substantive financial and tax issues in estate planning, as well as the intangible elements of leaving behind a meaningful legacy. Readers will learn of new and upcoming developments in the law, the pros and cons of standard estate planning vehicles, and lesser-known structuring options they may not have previously considered. With practical tips and useful sample estate planning documents, Inside the Minds: Estates Trusts is an indispensable resource for making sure your estate is in good hands. About Inside the Minds: Inside the Minds provides readers with proven business intelligence from C-Level executives (Chairman, CEO, CFO, CMO, Partner) from the world's most respected companies nationwide, rather than third-party accounts from unknown authors and analysts. Each chapter is comparable to an essay/thought leadership piece and is a future-oriented look at where an industry, profession or topic is headed and the most important issues for the future. Through an exhaustive selection process, each author was hand-picked by the Inside the Minds editorial board to author a chapter for this book.
