**Lisa G. Lerman, Philip G. Schrag : Ethical Problems in the Practice of Law (Aspen Casebook)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Ethical Problems in the Practice of Law (Aspen Casebook):

Author of this book is making money on what is clearly a useless book with little to no substance. This book can easily be replaced with MRPC from ABA website along with a few cases that you can look up on Westlaw or Lexis. Font appears to be 14-16 size, with large, unhelpful pictures of mundane objects (e.g. washing machine) and comics. The text itself is reiterating blatantly

obvious things. I understand for most students this is a required book, but you can succeed in the ethics course without this book. 0 of 0 people found the following review helpful. As advertised, no problem. By dogbreath321 I used this in a Professional Responsibility class this summer. 0 of 0 people found the following review helpful. Water damage. By Customer The book looks like it was dipped in water and set out to dry. The pages are all wrinkled, bent, and crunchy. Besides that, it's fine. It's still readable.

Ethical Problems in the Practice of Law, Fourth Edition is a problem-based casebook with a contemporary and thoughtful approach to challenging ethical dilemmas, encouraging deep analysis and lively class discussion. Thoroughly updated, the Fourth Edition presents: Recent changes to the Model Rules and other new developments in the law governing lawyers, and numerous new examples of recent cases of lawyer misconduct. Six new problems on conflicts of interest, a criminal defense lawyer's duty to investigate, prosecutorial investigations, and relationships between lawyers and judges. Up-to-date discussions of how the Internet is affecting law practice, including the use of e-mail, social media, blogging, and raising capital for law firms by crowdfunding. Expanded coverage of the post-recession changes in the legal profession. Discussion of the implications for confidentiality of employer monitoring of employees, government monitoring of electronic communications, and hacking of law firm computer systems. Deeper coverage of ethical issues for prosecutors. Lerman/Schrag/Gupta Model Rules supplement includes 115 practice questions and detailed answers to help students prepare for the MPRE, and a selection of provisions from the state ethics codes that diverge from the Model Rules for comparative analysis.
