**Judith Ahronheim, Jonathan Moreno, Connie Zuckerman : Ethics In Clinical Practice (Ahronheim, Ethics in Clinical Practice)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Ethics In Clinical Practice (Ahronheim, Ethics in Clinical Practice):

0 of 3 people found the following review helpful. Great Buy!By MzScorpioI was pleasantly surprised when I received my order. I figured for \$15 the book had to be in below average condition. Well the book looked new and shipping was very fast. I look forward to doing business with this company again should I need another textbook for school. Thank you Net Textstore!!0 of 3 people found the following review helpful. Good condition, excellent text,

however...By Wm. C. WalravenIt is marked "Mineral Area College" on all sides and still has their libraries' barcode on the cover, spine, and back, as well as having many markings inside. This is particularly troublesome as it appears to not have belonged to the seller. Buyer beware.

Ethics in Clinical Practice, Second Edition continues to focus on multidisciplinary medicine and how ethical dilemmas affect not only doctors and patients, but also nurses, social workers, members of ethics committees, hospital attorneys, administrators, and others. Greater attention is given to care in a variety of settings and across settings. Cases reflect the managed care phenomenon and cost containment, demographic changes, the electronic revolution, and the ethical dilemmas resulting from this new climate. The revised edition discusses advances in palliative medicine and its availability, and includes new data regarding attitudes and prevalence of physician-assisted suicide. Attention is given to how issues of cost containment might directly or indirectly influence patients' end-of-life treatment options. Cases are updated to include pertinent information about medical advances and legal developments, and how ethical analysis reflects these new developments.

About the Authorfm.author\_biographical\_note1JONATHON D. MORENO is Professor of Pediatrics and Director of the Division of Humanities in Medicine at the State University of New York Health Science Center, Brooklyn.
