Tamara K. Hervey, Jean V. McHale : European Union Health Law: Themes and Implications (Law in Context) before purchasing it in order to gage whether or not it would be worth my time, and all praised European Union Health Law: Themes and Implications (Law in Context):

A contextual analysis of the internal logics of EU health law through four themes: consumerism; (human) rights;

interactions between equality, solidarity and competition; and risk. Leading authors in the emergent field explain the interactions and implications of EU health law through thematic reinterpretation of the law in context in key substantive areas, such as the regulation of health research, access of patients to high quality care, health care professional regulation, organisation and funding of health care services, and public health. This book offers a fresh perspective and thorough understanding of EU health law through individual and collective or systemic perspectives, and covers health law both within the EU and globally. Essential reading for anyone interested in health law in any EU Member State or in global health law.

About the Author Tamara Hervey is Jean Monnet Professor of EU Law and Head of School, School of Law, University of Sheffield. Jean McHale is Professor of Health Care Law and Director of the Centre for Health Law, Science and Policy, University of Birmingham.
