Judith Areen, Marc Spindelman, Philomila Tsoukala : Family Law (University Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Family Law (University Casebook Series):

The concise edition continues the long tradition of innovation for which this casebook is widely known and prized. This new-style edition delivers an up-to-date overview of U.S. family law that weaves together a thoughtfully edited blend of black-letter rules, policy, narrative, history, and transnational sources, with theory judiciously sprinkled throughout. The resulting mix is a casebook that introduces the full range of family law topics in a manner that is

direct, unadorned, accessible, and distinctively teachable. This edition is ideal for instructing students on major highways of the field, with materials that capture and convey their dynamism, interest, and future directions.
