Mary Garvey Algero, Spencer L. Simons, Suzanne E. Rowe, Scott Childs, Sarah E. Ricks : Federal Legal Research, Second Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Federal Legal Research, Second Edition:

This book complements the state-focused Legal Research Series. Federal Legal Research offers concise explanations

of primary authorities in the federal system, along with chapters on secondary sources, updating, legislative history, and legal ethics and court rules. The book covers current platforms in Westlaw, Lexis, and Bloomberg; free online sources; and print sources. Federal Legal Research takes a process-oriented approach to research. Its in-depth discussions of strategies and techniques for conducting American legal research make it effective in classes that integrate research, writing, and analysis as well as in courses with a bibliographic approach.
