Carol Smart : Feminism and the Power of Law (Sociology of Law and Crime) before purchasing it in order to gage whether or not it would be worth my time, and all praised Feminism and the Power of Law (Sociology of Law and Crime):

Carol Smart's pioneering critique of legal constructions of sexual consent has provided a clearer and unique understanding for my research.

In this now established text the author presents her analysis of the power of law and argues for a feminist post-structuralist approach. She comments on pornography, as well as discussing recent research on rape trials and abortion

legislation.

". . . an important and illuminating feminist analysis of the law It is to be highly recommended for those concerned with sociology, women's studies, law, social work, public policy and the generally socially concerned reader." -- Crime, Law and Social Change
"Smart's Feminism and the Power of Law represents a worthy and learned attempt to acknowledge the power of feminism to construct an alternative reality to mainstream legal discourse. This is an important and provocative book which should be read by those unafraid of differing views of jurisprudence and students of feminist legal theory." -- Melbourne University Law
