Levitt : Find Info Like a Pro: Mining the Internet's Public Records for Investigative Research (Volume 2) before purchasing it in order to gage whether or not it would be worth my time, and all praised Find Info Like a Pro: Mining the Internet's Public Records for Investigative Research (Volume 2):

Find Info Like a Pro, Volume 2, will teach you how to conduct effective investigative and background research using public records available on the Internet. The companion volume to Find Info Like a Pro, Volume 1, this book will instruct legal professionals and anyone else to use hundreds of government and non-government Internet sites to uncover public records. This new volume applies the techniques from Volume 1 to free, public searches specifically. The resources and techniques in this book are useful for finding assets; advising clients about potential business partners; depositions; locating missing witnesses, clients, or heirs; and investigations of all kinds. A CD-ROM featuring clickable links to all of the sites contained in the book is included. Find Info Like a Pro will assist anyone who wants to learn how to find free and low-cost public record Internet sites for investigative research. The book will help you:

- Determine where to begin your search by using public record sites
- Decide when to use fee-based databases instead of (or in addition to) free sites
- Find addresses for service of process
- Unearth assets, real and personal property
- Discover political persuasions
- Obtain vital records, criminal records, liens, judgments, and UCCs
- Uncover background information about people (and companies) via docket, case law, and corporate record research
- Locate occupational licenses
- Understand the difference between credit reports and credit headers and how and when you can legally obtain each
