Susan A. Schneider : Food, Farming, and Sustainability: Readings in Agricultural Law before purchasing it in order to gage whether or not it would be worth my time, and all praised Food, Farming, and Sustainability: Readings in Agricultural Law:

Food, Farming, and Sustainability provides a survey of the unique network of laws that apply to agriculture, framed in the context of society s need for a sustainable, resilient food supply. Traditionally, agriculture has been favored in the law with exemptions, exceptions, and special rules that reflect the unique character of agricultural production. This

book examines this special treatment, exploring its origin and its impact. The new edition provides updates to each of the prior chapters, incorporates new census data on agriculture in the U.S., explores the 2014 Farm Bill, and examines new developments in agricultural biotechnology law. It is an expanded edition that includes a new chapter on food safety and agricultural production and incorporates new readings on climate change and agriculture. The book continues its theme of providing a mix of readings in law and policy, using current events to highlight the challenges facing society in balancing social, political, economic, and environmental concerns. From its initial discussion of "agricultural exceptionalism" and industrial scale production to its concluding remarks on the future of our food system, this book is certain to provoke thoughtful discussion.

From the Author Agricultural and food law issues are continually changing. A companion website is available to supplement the resources provided in this book. The website tracks the book's chapters and links to legal resources. It is available at foodfarmingsustainability.com About the Author Susan Schneider is the Wm H. Enfield Professor of Law at the University of Arkansas School of Law. She teaches a variety of agricultural and food law courses and directs the LL.M. Program in Agricultural Food Law, the first advanced degree program in agricultural and food law in the United States. She is the co-owner of her family's farm in Minnesota. The barn shown on the book's cover was built by her grandfather with help from his family and friends in 1920. Professor Schneider has worked on behalf of family farmers and a sustainable food system for over thirty years, first as a practicing attorney and later as a law professor.
