Thomas Franck, Michael Glennon, Sean Murphy, Edward Swaine : Foreign Relations and National Security Law: Cases, Materials, and Simulations (American Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Foreign Relations and National Security Law: Cases, Materials, and Simulations (American Casebook Series):

0 of 0 people found the following review helpful. Five StarsBy Matthew KellerI was required to buy this book by my professor, who is also one of the authors. #JusticeJackson

Foreign Relations and National Security Law: Cases, Materials, and Simulations contains classic cases from *Foster v. Nielsen* to *Samantar v. Yousuf* and penetrating commentary from *The Federalist* to Dean Harold Koh and Justice Antonin Scalia. The title's treatment of thought-provoking controversies includes: The intervention in Libya WikiLeaks disclosures The killing of Osama bin Laden Drone attacks on U.S. nationals NSA wiretapping Guantanamo trials Excerpts of treaties, statutes, and executive orders address the core doctrinal and theoretical issues of foreign relations law and national security law, providing ample room for professors to design a course based on those topics most suited for their classroom experience.
