**Robert P. Merges, Jane C. Ginsburg : Foundations of Intellectual Property (Foundations of Law Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Foundations of Intellectual Property (Foundations of Law Series):

0 of 0 people found the following review helpful. Ars eligendiBy Mazziotti GiuseppeThe book edited by Profs. Merges and Ginsburg is, without being rethoric, simply an extraordinary reading, a powerful and very enjoyable tool that is to help all of us in addressing and discovering the most important literature on U.S. Intellectual Property in the best way. References on economic/market issues concerning copyright and digital technology are abundant and thought-provoking as well as the reported (and still open!) debate about the appropriateness of current patent, trademark and industrial design protection. I'm sure that everyone interested in improving his or her understanding on the complex world of IP may greatly benefit from the readings such a powerful guide provides.0 of 0 people found the

following review helpful. An American vision  
By Denis B. Barbosa  
Intellectual property is a complex issue, and most books on the subject deals mostly on the legal practice or economic aspects of the matter. This academic-intended volume has virtually all basic texts needed to understand the core problems of the subject, and is a precious help to serious students and researchers. A treatment of the International problems related to the matter and some further discussion of the crucial theme of public domain would be recommended in a future edition. But, alas, it is a precious work, and I have included it and the basic bibliography of my graduate IP courses in Brazil.

By Thomas Landers  
Exactly as described.

This book provides a comprehensive yet concise collection of commentaries on the topic of intellectual property. The editors bring together the most influential writings on patent, copyright, trademark and design protection, beginning with early material from the seventeenth century and continuing into the contemporary law review literature. The Foundations of Law Series offers a collection of comprehensive readings that provide an interdisciplinary perspective on a substantive legal field. Edited by scholars who have made important contributions, the readings are designed to provide an accessible introduction to the leading scholarship in a field. Accompanying notes and questions permit students to engage fully in the literature on their own, as well as to aid their understanding of material covered in classes.

About the Author  
Robert P. Merges is the Wilson Sonsini Goodrich Rosati Professor of Law and Technology at U.C. Berkeley (Boalt Hall) School of Law, and Professor of Law, U.C. Davis Law School. He is also a co-Director of the Berkeley Center for Law and Technology. Jane C. Ginsburg is the Morton L. Janklow Professor of Literary and Artistic Property Law, and co-Director of the Kernochan Center for Law, Media and the Arts at Columbia Law School.
