Carriere : Friedmans Family Law (Friedman's Practice) before purchasing it in order to gage whether or not it would be worth my time, and all praised Friedmans Family Law (Friedman's Practice):

0 of 0 people found the following review helpful. one of the best exam prep books I've used!!By mThis book was a lifesaver when I was studying for my family law exam this past December! There are multiple choice questions and explanations, which are great. But what made this a standout for me was issue spotter-type questions with full, professor written essay answers. One of the things I find hardest about exams is figuring out how to talk about the law that I've learned; seeing it written out, fully analyzed and explained articulately and clearly was huge. It was also really helpful for seeing how to spot issues- Friedman goes through each issue in the exam question he poses which I really

appreciated. 0 of 0 people found the following review helpful. Great for exam prep

This book was very helpful for preparing for exams. It had 5 essay exams, which each exam consisting of 4 separate essays. The answers provided for the essay exams were great, including relevant black letter law, rule application, and policy issues. It also contains 100 multiple choice questions with thorough explanations. This book is NOT a substitute for class! You must know the material before you can get the most benefit from it.

Friedman's Practice Series is keyed to exam preparation with real law school essay exams, model answers, multiple choice questions and academic analysis, and offers students insights into writing essay exams in core courses.
Features: Real law school essay exams from top law schools
Multiple-choice questions with model answers
