Martti Koskenniemi : From Apology to Utopia: The Structure of International Legal Argument before purchasing it in order to gauge whether or not it would be worth my time, and all praised From Apology to Utopia: The Structure of International Legal Argument:

Drawing from a range of materials, Martti Koskenniemi demonstrates how international law becomes vulnerable to the contrasting criticisms of being either an irrelevant moralist Utopia or a manipulable faade for State interests. He examines the conflicts inherent in international law--sources, sovereignty, 'custom' and 'world order--and shows how legal discourse about such subjects can be described in terms of a small number of argumentative rules. Originally published in English in Finland in 1989, this reissue includes a newly written Epilogue by the author.
