Fabio Tronchetti : Fundamentals of Space Law and Policy (SpringerBriefs in Space Development) before purchasing it in order to gage whether or not it would be worth my time, and all praised Fundamentals of Space Law and Policy (SpringerBriefs in Space Development):

0 of 0 people found the following review helpful. Three StarsBy CustomerThere is need for revise and detailed

analysis and update

Presents and addresses key space law and policy issues for the benefit of wider informed audiences that wish to acquaint themselves with the fundamentals of the space law field. This brief analyzes in a concise manner the combined influence of space law and policy on international space activities. Read in conjunction with the other books in the Springer Space Development series, it supports a broader understanding of the business, economics, engineering, legal, and procedural aspects of space activities. This book will also give the casual reader as well as experts in the field insight on present and future space law and policy trends, challenges and opportunities.
