**Barry Furrow, Thomas L Greaney, Sandra H Johnson, Timothy S Jost : Furrow, Greaney, Johnson, Jost and Schwartz' Health Law, Cases, Materials and Problems, Abridged 6th (American Casebook Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Furrow, Greaney, Johnson, Jost and Schwartz' Health Law, Cases, Materials and Problems, Abridged 6th (American Casebook Series):

1 of 1 people found the following review helpful. Fav Law book!By jonmicahel187Bought this for a class... It's easy to read/follow, great case examples to go along with the laws... felt that it is easier to read than most law books. (warning

though, super sad- obviously this is a case book, so you are reading things that went wrong and thus are examples of health law... depressing!)0 of 3 people found the following review helpful. My mistakeBy Pretty SmartI ordered this book by mistake but I had no problems returning it. It was very simple and fast.0 of 0 people found the following review helpful. Health LawBy SWrotenThis book is an excellent resource for learning the specifics of Health Law. It is easy to comprehend for any non-lawyer.

This abridged edition continues to use the broad organization that health law teachers and students found so helpful in the last five editions. Notes material has been trimmed substantially and some cases and sections of the primary casebook have been deleted. The authors goal was to create a book better suited for schools that have curricular space for only one course, including medical schools and schools of public health.
