The doctor and the lawyer in Idaho Falls that Veverly discusses what the did wrong should have to pay a price for what they did. Due to me with a law degree having lost 7 centimeters of the brain due to passing out as a result of a medicine, it means the world to me that Veverly has published this book so others too can understand what a nightmare it is for those of us disabled due to medical

A Mother' s Love and Tenacity in the Face of CorruptionBy M. HallDue to the heart wrenching nature of this book, it is difficult to get through. This book is nothing short of a roller coaster ride of emotions. Unless you are not human, you will feel anger, disbelief, frustration, helplessness, joy, hope and faith. Veverly has bravely shared her and her family's tragedy turned to joy through God's s miracle. She has courageously relived this scenario countless times in a hope that others may become aware of the disregard some have for others whether in the medical field or other areas of life. This book reinforces my belief to question authority and trust God. May God continue to bless and protect Veverly and Robyn. Those who commit such egregious crimes and cover ups as those apparently committed by the powers that be in the Idaho community she describes will have an accounting day. This book is a must read for everyone.

In October of 2007, Robyn Edwards was declared brain dead due to gross negligence by a neurologist in Idaho Falls, Idaho. After causing permanent disability to a 13-year-old African American girl/honor student/athlete, he changed her medical history to include a condition she never had? How can a doctor blatantly change a child's medical history? It was easy for this doctor because officials in Idaho took part in the cover up. The author used the evidence she discovered in the records retrieved from Robyn's attorney when she took on the court case herself. Consequently, Robyn's attorney used false information in an attempt to intimidate them into dismissing the case with prejudice. The false records and letters from the attorney and Idaho Officials are compiled in this book.

About the AuthorThe author is a single mother of three children. She has an Education Specialist Degree in Adult Organizational Learning and Leadership and is currently working on an MFA in Nonfiction Writing.
