Scot Ober, Jack E Johnson Dr., Arlene Zimmerly MA : Gregg College Keyboarding Document Processing (GDP); Lessons 1-120, main text before purchasing it in order to gage whether or not it would be worth my time, and all praised Gregg College Keyboarding Document Processing (GDP); Lessons 1-120, main text:

34 of 34 people found the following review helpful. good book and with instructionsBy Guru Redkarhi i received this bundle in 2 days with free shipping, and the cost is much cheaper than in college bookstore, my college is selling it for \$170.00 and i saved a lot on , i am making others life easier by giving this review. it contains everything that you need, a registration code, an essel to hold your book, a small manual to accompany which i feel not necessary, and the main book of document processing.. its all in one big box.. though dont give any such description and so its difficult to understand what you are ordering. i feel the other students before ordering just order a book and you can buy the code online on the gdp site.. well it both makes the same cost.. saved my money..thank you so much 3 of 3 people found the

following review helpful. GreatBy NoellIt came with the GDP activation code and all the books I needed for my college course.0 of 0 people found the following review helpful. Excellent! Kit 1 Lessons 1-60 Coursework!By Grandma6This worked out perfectly for the course I'm taking and walks me through what I need to know. I would recommend anyone that needs this to contact the seller with the exact course book that you need including ISBN#. That is what I did and received the correct box for my course.

Gregg College Keyboarding and Document Processing (GDP), 11e by Ober, Johnson, and Zimmerly: Your complete learning/teaching system. Your guide to success. GDP/11 is an integrated keyboarding system designed to process and score documents created in Microsoft Word. Together, the book and software systematically lead students through each lesson to provide an easy path to success. As a solid product for over 50 years, this version of the GDP software has grown into an online functionality. The same program is now web-based with seamless updates to provide greater accessibility for use at home, in class, and in labs - perfect for distance learning! Strong enhancements to the book while maintaining key elements including integrated language arts (starting at lesson 21) support the cohesive program's strong content. Skillbuilding is reinforced with MAP+ (Misstroke Analysis and Prescription). MAP+ is an individualized, diagnostic tool that is built into the software to help identify student's strengths and weaknesses while providing prescriptive drills to help them practice where they need it most. Also, MAP+ now has new, unlimited drill lines that begin at Lesson 1. Additionally, GDP/11 automatically scores for keyboarding errors and now formatting errors too! As a result, instructors will appreciate the customization of course management tools in GDP/11, including the new GPS (Grade Posting System) which allows complete flexibility in setting up grades. GDP/11 your complete learning/teaching system. Your guide to success.

About the AuthorScot Ober (Ph.D, Ohio State) is a full-time consultant in business communication and document processing. Prior to his consulting career, Dr. Ober was Professor of Business at Ball State University. In addition to having taught Business Communication for over twenty years, he served as Editor of the Business Communication Quarterly for 1995 and 1996 and conducted an MBA-level Distance Learning Program through Ball State University.
