**Steven H. Bazerman, Jason M. Drangel : Guide To Registering Trademarks** before purchasing it in order to gage whether or not it would be worth my time, and all praised Guide To Registering Trademarks:

7 of 7 people found the following review helpful. Hands on How ToBy D. RobertsIf you eat and breath trademark applications on a daily basis, chances are you don't need this book, but if you are starting out with them, or use to work with them but now do so only occasionally, this is a fantastic resource. Bazerman and Drangel have done quite a job providing more than enough hand holding examples and formats to cover nearly all the bases from simple "Hello" letters to the clients, to detailed responses to the TM Examiners (Complete with relevant case law citations!). Simple form letter guide this is not, there is ample text and narration for how and why TM law exists and operates the way it does. Truly covering all aspects of involvement with TM's, this book is a handy reference. There are really only two drawbacks, and neither is truly critical. 1) there is very little about Domain Names, but then again this is a new frontier for TM/SM law. 2) The provided compute forms exemplified in the book are overly simplistic in their formatting. By the time you whip them into shape you might just as well type them from scratch.

You can minimize your research time and prepare trademark forms with confidence when you use the Guide to Registering Trademarks as your on-the-spot guide. This carefully constructed loose-leaf offers more than 200 practice-tested ready-to-use forms available in both hard copy and on CD-ROM.Step-by-step instructions guide you through the process, addressing both basic and unusual situations you may encounter along the way. The forms are organized

by category: Client forms Searches and other pre-filing activities Applications for Registration Responses to office actions Section 8 and 15 affidavits Renewals and interparty proceedings. The Guide to Registering Trademarks answers questions running from which form to use in recording an assignment to how to start a concurrent use proceeding. Keep it close at hand to make your trademark application process as painless as possible.
